

## Draft Interview Questions for Mayor and City Council

1. What do you value about the City of Dunwoody?
2. What is it like for you to live here?
3. What changes would you like to see most?
4. If you could raise your magic wand and change one thing about Dunwoody, what would it be?
5. What are your hopes for Dunwoody in 100 years?
6. What role do you see sustainability playing in the future for City of Dunwoody?
7. What do you think has been working well? What has not?
8. What role do you see the Sustainability Commission playing in the operations of the City of Dunwoody? Today it is a quasi-organic relationship, whereby Council will refer to the Sustainability Commission on a reactionary basis. Do you see that as working or is there another way?
9. Do you count on the Commission to stay tuned to the operations of the Council and to comment when they see fit?
10. What would you say are the priorities for sustainability?
11. How should sustainability be considered for future projects, ordinances, policies, etc.? Should sustainability staff have an obligation to the committee and citizens regarding all actions taken by the City?
12. If you could raise your magic wand and change one thing about Dunwoody, what would it be
